MERCHANT MARINE REST CENTERS

REST-RELAX

AND RECOVER

Merchant Marine Rest Center, Sands Point, Long Island, N. Y.

Merchant Marine Rest Center, Bay Ridge, Md.

• THE MEDICAL SERVICES

OF THE RECRUITMENT AND MANNING ORGANIZATION—WAR
SHIPPING ADMINISTRATION AND THE UNITED SEAMEN'S SERVICE

THE MERCHANT MARINE *Rest Centers* are comfortable, home-like country places near the large seaports. Merchant seamen go there for rest, quiet, recreation, and medical care between trips.

The Medical Section of the Recruitment and Manning Organization of WSA and the United Seamen's Service operate these *Rest Centers* for all merchant seamen who need this type of service. The homes are staffed by doctors of the United States Public Health Service assigned to Recruitment and Manning Organization, WSA.

WHO GOES TO A MERCHANT MARINE REST CENTER?

ANY active merchant seaman who will benefit by a stay and who does not need hospital care.

Men who are worn and tired from long trips and the rigors of shuttling.

Men who have lost weight and who feel run down.

Men who are restless and jittery from enemy attacks or the threat of attack.

Men who need convalescent care after being in a hospital.

THE PORT MEDICAL OFFICE CAN HELP YOU

APPLY at the PORT MEDICAL OFFICE to go to a *Rest Center*. The Port Medical Worker will make all of the necessary arrangements for you.

You can get help on many other problems . . . arrangements for necessary medical care and appointments you may need. You are referred to the proper people to

get an artificial limb or cane, glasses, dentures, training for upgrading, etc.

IMPORTANT! You can get the address of the *Port Medical Office* at your port of entry from the booklet "*SHORE CONVOY*," the War Shipping Administration office, the United Seamen's Service, U. S. Public Health Service hospitals, or at your union hall.

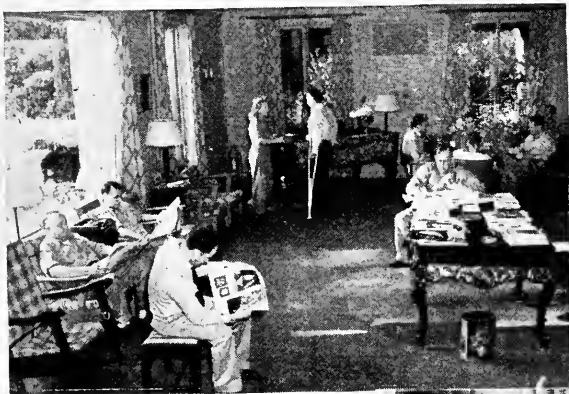

REPATRIATED SEAMEN . . .

returning from foreign ports are met on arrival by a Field Representative and a Medical Officer of the WSA Recruitment and Manning Organization. These officials see that the men get any medical and personal care they may need.

If you are being repatriated and don't see the doctor, ask for him. If you were in a hospital abroad, sick or nervous aboard

ship, he will want to hear your story. He will direct you to the Port Medical Office or to a Marine Hospital.

You may feel so good at getting home that you won't realize at the time that you need a doctor. But, it is a good time to get acquainted with him in case you want to look him up later at the *Port Medical Office*.

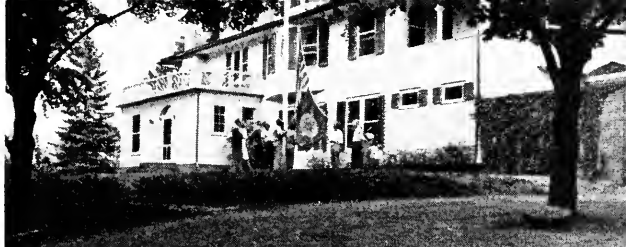

Men—Doesn't this beat any-
thing?
